PREVIEW

More details at: www.panfloetenfestival.ch

The second Pan Flute Festival 2015, in Rümlang will offer a diverse festival program with many highlights for young and old.

It takes place in the premises of the school rooms "Worbiger" and the Catholic Church of St. Peter in Rümlang on Saturday, September 5th, 2015.

Even before joining the festival it is evident that this project will be a unique opportunity, because like the first Festival 2012, many panflutists will participate in this festival, which is generously supported by the municipal of Rümlang.

Workshops will include various topics and our participants will be actively trained and informed by the competent instructors. Exciting panflute topics will not only motivate many panflutists for improving their playing technique, but also will invoke general interest with respect to the panflute.

The gala concert, another highlight of the festival, will present itself as a many-sided musical experience.

The children's program "The Little Pan" includes fully composed image-scenes about Greek mythology and God Pan. This is especially attractive for our young Panflutists. The pan flute competition offers young talents the chance to inspire the listeners.

In the concert hall versatile performances will be heard all day in various formations. In the municipal hall, numerous exhibitors will present their products. There is also space to chat in a relaxed atmosphere with other panflute fans.

The event will be a big festival.
